

Dear Friends and Neighbors,

For many years I've worked very hard to help our community grow stronger and to make Charlton a safer and more fun place to live. I am very community committed and would bring more of an active leadership role to the Board of Selectmen.

I feel this is the time to bring more of a grass roots and common sense approach to our town government. I have a proven track record in serving our community, such as helping to save Old Home Day, working to bring back our town's fireworks as well as leading volunteers in the construction of our new animal shelter at huge savings for taxpayers. I also do volunteering for many other community services in Charlton.

This is your opportunity to make change for Charlton. Your voice may become many on May 7th. Every vote counts and I am asking for yours.

Please vote: BRENT SELLEW FOR SELECTMEN
