

My name is Peter Boria and I am looking for your vote to become your State Representative in Boston for the 6th Worcester District.

I am running for this office because I want to be your independent voice for the district. As your state representative, I will utilize my experience as a Selectman, my knowledge as a business owner and my concerns for our communities to offer up ideas and bring together support for legislation that is best suited for our district; while voicing opposition for all of those that are not. As an independent state representative, I will not be obligated to vote as party leadership expects from its members; thus allowing me to freely cast my votes for what is in the best interest of the constituency, while leaving me completely accountable only to you, the people of the 6th Worcester District!

As a seven year Selectman in Charlton, I have been afforded the opportunity to learn the numerous complexities of local government. I work **diligently** to obtain all information in order to make the most informed decisions prior to casting any vote. Because of my ability to work with people of differing opinions, listening to what they have to say and compromising fairly and honestly, I have built many mutually respected relationships with local boards, committees and unions. I will do the same in Boston as your next State Representative.

Growing up in Charlton and returning there after college, with my wife Selina Aldahondo, to make our home and raise our three fabulous children, Kyle, Isabelle & Abigail, is what drives me to make Charlton and the surrounding towns a great place to live. Being involved with my family's business, LaMountain Construction, Inc., I have learned the importance of listening to people's **needs**, holding myself **accountable**, and just how critical it is to operate **within a budget**.

It is time to stop the decreasing of services and never ending increasing costs being placed upon us. The circumstances of this special election have afforded the voters a rare second opportunity to choose a candidate they can have confidence and faith in, a real choice for honest representation for the Sixth Worcester District; a real independent in Boston.

For these reasons I am asking for your vote on May 10th.

Please join me at my campaign kickoff party Friday April 1st at Heritage Country Club in Charlton
