Position seeking: Moderator

Statement:

I'm Peter Cooper Jr., running for re-election as Charlton's Town Moderator. It has been my pleasure to serve as Moderator for the past two years, and I look forward to continuing to serve in that role. I am quite familiar with Town Meeting parliamentary procedure and have attended training workshops with the Massachusetts Moderators Association. People always love to complain about the government, but in Massachusetts towns, the people are the government, and get to directly participate. I look forward to using these skills I've learned to help individuals participate in our political process, and thereby help the Town make the important decisions that it needs to make over the upcoming years. In addition to ensuring town meetings run smoothly, as the appointing authority of the Finance Committee I will continue to appoint members who understand the important responsibility of wisely using the taxpayers' money to provide needed town services. I would appreciate your vote of confidence in me as I continue to serve our community as Town Moderator. Please email or call me with any questions you might have about Town Meeting or my candidacy and I would be happy to answer them. Thank you.
