Mr. Perry updated the commission on the design.

After receiving and reviewing McClure Engineering's peer review, Mr. Cantwell stated that it was noted that there was no technical design report provided with the Water and Sewer Package as reviewed, and that receipt of a technical design report would likely clarify many of the questions posed in the review.

Mr. Perry will put together a technical document together to be sent out next week.

Mr. Perry also stated that the Town of Southbridge did review with no comment and the application was approved.

Mr. Boria commented that there were no real technical comments on infrastructure from McClure Engineering and is looking for approval for him to sign their application to Mass DOT for the infrastructure in Rte. 20.

Mr. Jennings motioned to grant conditional approval pending condition upon resolving any and all peer review issues brought up by Chris McClure.
